Notes:
 Data based on American Institutes for Research (AIR) Early Learning Needs Assessment Tool (ELNAT), five-year estimates from American Community Survey (2018 Data)
 Number of children living in households earning under 85% state median income (SMI) derived American Institutes for Research (AIR) Early Learning Needs Assessment Tool (ELNAT), five-year estimates from American Community Survey (2018 Data)
 Number of subsidized slots is determined by the number of child care slots a program is licensed for.
 To determine the number of eligible underserved children subtracted the number of available slots from the number of eligible children. If the number is negative we have a surplus of slots thus resulting in 0 # of eligible underserved.
 To determine the % of eligible underserved children divide number eligible underserved children by the number of eligible children multiple by 100.
 Additional information: To determine the % of children served divide the number of subsidized slots by the number of eligible children.
 Swall Meadows, Paradise and Chalfant have a Zip Code that is in both Mono and Inyo County. Mono County makes up 7.3% of over all number. To determine the number of children for that zip code you multiplied the total number of children for that zip code by .073. They are closer to Inyo County and receive services there
 *Children in June Lake often receive services in Lee Vining.
 ** Children in Walker often receive services in Coleville.
 The # of child care slots is a combination of Family Child Care Home and Licensed Center-based Child Care slots. The specific # is determined by the number of children the Family Child Care Home (FCCH) and Licensed Center-based Child Care is licensed for and assuming most FCCH slots are for infants and toddlers. This number excludes the Mountain Warfare Training Center (MWTC) Child Development Center as these slots are restricted by parental employment.
